Hood River	3	20.9	2	23.0	3	0.0	2	5.2

NOTE: This summary includes all spawning fish surveys received through current date. Surveys are listed by population (north to south). Lower Columbia Coho ESU population information is listed at the end of the report. The counts included in the summary are for the principal target species for that survey and do not include counts of other species. NOTE: Excludes sites that are immediately downstream of hatcheries.
